PATENT COOPERATION TREATY

PCT

INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Applicant's or agent's file reference 96700/884						
International application No. PCT/US04/20902	International filing date (day/month/year) 30 June 2004 (30.06.2004)	(Earliest) Priority Date (day/month/year) 02 July 2003 (02.07.2003)				
Applicant ALBERT EINSTEIN COLLEGE OF MEDICINE OF YESHIVA UNIVERSITY						
This international search report consists of	. 1					
Basis of the Report a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item. The international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).						
b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, see Box No. I. Certain claims were found unsearchable (See Box No. II) Unity of invention is lacking (See Box No. III) With regard to the title, the text is approved as submitted by the applicant. the text has been established by this Authority to read as follows:						
5. With regard to the abstract,						
the text is approved as submi the text has been established,		as it appears in Box No. IV. The applicant t, submit comments to this Authority.				
as suggested by the a	uthority, because the applicant failed to sugguithority, because this figure better characteris	est a figure				

Form PCT/ISA/210 (first sheet) (January 2004)

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US04/20902

Box No. II sheet)	Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first				
	This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following				
1.	Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:				
2.	Claims Nos.: 2-48 because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically: Please See Continuation Sheet				
3. 6.4(a).	Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule				
Box No. III	Observations where unity of invention is lacking (Continuation of item 3 of first sheet)				
1.	As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:				
4.	No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:				
Remark on I	Protest

Form PCT/ISA/210 (second sheet) (January 2004)

Continuation of Box II Reason 2: The numerous variables, e.g. (formula I, II, III, IV, V, structures 1-24, R1, R2, R3, R4, Y, X, R5, etc.) and their voluminous, complex meanings and their virtual incomprehensible permutations and combinations make It impossible to determine the villa scope and complete meaning of the claimed subject matter. As presented the claimed subject matter cannot be regarded as being a clear and concise description for which protection is sought and as such the listed claims do not comply with the requirements of PCT Article 6. Thus It is impossible to carry out a meaningful search on asme. A search will be carried out on the first discernable invention of claim 1 which is the compound of example 3, page 35, 2-fluoronicotinamide. Continuation of B. FIELDS SEARCHED Item 3: CAS ONLINE STN structure search		International application No.
